

## **Q. I don't understand the concept of Worlds?**

An easy way to think of worlds is to think of them as caves.

Everytime you enter a cave, what happens?

You have to go through the doors, which may not easily open or be guarded and hidden.

You find strange things there.

Sometimes you come out with gold.

*In Indiana Jones and the Raiders of the Lost Ark (1981)*, Indy goes into the cave and pulls out the idol. But he also pulls out the fact that Belloq always steals them from him.

*In The King's Speech (2010)*, the Duke has to make a speech. He goes into the cave of broadcasting and pulls out the fact that he is a terrible speaker.

All stories can be viewed as progression through a series of caves.

Best,
